“I WOULD rather be right than I am than be President, but I don’t know how it is with brother JOHN.” (W. T. SHERMAN.)

GOV. MURRAY of Utah is in a condition to receive the sympathy of Gov. CHITTENDEN of Missouri. He has been keeping bad company.

ST. LOUIS will send forty-eight delegates to the State Convention, with the chances even as to whether they will be good men and true, or bummers.

CHIEF HARRIGAN’s detectives did an excellent piece of work yesterday in running in the thieves and restoring the property stolen by them from Mr. SMUCKER’s residence the night before. How about the pawnbrokers who had the swag?

WHILE the Danville riot is made use of at one end of the Capitol building, the gentleman who is credited with starting the Danville riot receives a clerkship at the other end of the building and thus at the Republican party make both ends meet.

SPRINGER’S Committee on Frauds in the Department of Justice has only to shut its eyes and fire into the bushes to bring down its game. The first broad hit by a random shot is ex-Marshall Eli MURRAY, now Governor of Utah, a half brother of our own CHITTENDEN.

THE quantity but not the quality of the representation of St. Louis in the State convention has been fixed. When the time comes for choosing the delegates the gentle Democrats will stay at home, the bummars will run things to suit themselves, and the next morning “Old Citizen,” and “Subscriber,” and “Veritas,” and “Justitia” will write letters to the papers deplored the degradation of political censorship.

WE should be sorry to believe that any one seriously entertained so stupid a proposition that of anticipating the municipal revenue under any pretext or under any circumstances. The city has no other resources except the revenue which comes in each year. If it cannot pay its current expenses with its current revenue it is only the part of reason to assert that it cannot meet those expenses after its revenue has been lessened by the suicidal folly of spending a part of the revenue before it has come in.

THE Republican says “nothing could be more unreasonable” than to object to the city’s anticipating its revenue and adds, “There is every reason to believe the growth of the city will in time bring such an increase of revenue that it can well afford to spend some of it now.” It would take about five years of such a policy to bring the city into the same financial condition as the Republican is now enjoying, when the estate of its senior proprietor is shown by the records of the court to be plastered up with mortgages beyond its full value.

IT may be merely a coincidence that on the day after General SHERMAN had reiterated his refusal to accept the Presidential nomination on any terms, John SHERMAN flung to the breeze the old familiar banner of the bloody shirt. The rule of the Republican party has been that the men who have begged for the nomination have not gotten it, but John may break this rule. He has been beaten so often that he knows the combinations now, and few of the Republican leaders have a better chance the scramble than this thrifty Senator from Ohio.

CAPTAIN SEARS of the disbursing office of the Mississippi River Commission, deserves credit for the plain and honest way in which he made Congressman MILLER withdraw his offensive remarks about the Mississippi improvement. Congressman MILLER’s explanation is that when he said “fliching” he did not mean “fliching,” but there is no charity which will permit any sane man to accept the interpretation he now seeks to place on his words. A Congressman overcomes his position, and Congressman MILLER is placed in a very uncomfortable attitude by his vain attempts to explain language which he should never have used.

THESE is one special service which HENRY IRVING has rendered to the people of St. Louis which gives him a claim on their lasting gratitude. He has shown that it is possible to produce a most admirable scenic effect with comparatively little cost. All that is needed is some taste and skill, some conscientiousness and thoroughness, and this makes all the difference. With Mr. IRVING we have a background of scenery which elicits spontaneous applause as soon as the curtain rises.

curtain rises. Now that he has shown us how easy it is to do it, no one should be allowed to come after him with the monotonous old scenery which spoils so much of the pleasure of play-going.

GRANT is very fortunate in being able to say that he has no pecuniary interest in Mexico except a contingent interest. The political memory is usually accurate, seems to have never heard of C. L. Vandalinian’s recent departure in Ohio politics. He says:

“The only ‘new departure’ of which Vandalinian ever spoke was in 1868, when, after the October revolution, he was elected to the highest office in the country. He had not had a dollar of his own when he assumed the presidency, was a millionaire before his term expired. LERDO, his predecessor, made a small fortune out of street railroad charters granted by himself. GONZALEZ never expects to be poor again.

PACHECO, who was one of GONZALEZ’s Ministers of Public Works, has feathered a nest in his record and its masturbation, and piece in abreast of the times. He proposed to assume the leadership of the disintegrated organization, and his destination was the United States Senate. He came to Cincinnati, and, at a conference held in the St. Nicholas Hotel, laid down his plan and formulated his ideas. An outline was \$150,000 a month from the gambling monopoly. The average salary of a railroad company is \$8,000 a kilometre, and out of this the Government “whack” is, according to common rumor, \$3,000. When ROMERO held office under LERDO, he was getting rich very fast; the success of DIAZ left him out in the cold, but as he is in again with DIAZ, thanks to the prestige of GRANT, it is safe to say that he will not lose anything by any public measure he advocates.

BISHOP HUNTINGTON of the Episcopal Church has an article in the *Independent* on the unfitness of the public school system as a moral educator. There are many parts of the public school system and no other school system can compass. The especial work of our public schools is to make intelligent and useful citizens out of as many as possible of the great mass of children, the most of whom would otherwise not even learn to read. They have not time to discover the special aptitudes of all these children and to teach them one painting, one sculpture, another one engraving, and so on through an endless variety of trades. Certainly neither the public schools, nor any other schools, can perform the special work of the church, the family fireside and the social circle, in the way of moulding moral character or quickening and training the moral faculties of the young. We know of no proof or indication that the moral tone or atmosphere of the common school is less favorable than that of any other school to the development of cardinal virtues. If Oxford, or Eton, or any other educational institution resting on an ecclesiastical foundation, or peculiarly under the care of religious influences, is famous for the number of moral heroes it develops from an average generation, we should like to see the statistics. There is a vague impression abroad that the alumni of exceptionally straight-laced and religious schools are somewhat like preachers’ sons—good as the average, perhaps, but with reputations more fragile and more exposed to hostile censorship.

AN old feud between Kentucky Republicans resurfaces in a demand for an investigation of the official accounts of Gen. Eli H. MURRAY as United States Marshal for Kentucky from 1869 to 1876. Gen. MURRAY was investigated once before, and the affairs of the office were found in a shape so satisfactory to the Republican authorities at Washington that he was permitted to resign, and was soon thereafter appointed Governor of Utah, a half brother of our own CHITTENDEN.
